

Isn't it bad enough we have so called not profit organizations calling day in and day out whom hang up before you can tell them to take you of their list so they can call back again and again. My phone is for making and recieving calls I want not being tied up with repeated sales calls. I pay for my phone service so why don't I get to decide whom gets to call me. I say keep and even broaden the no call list to include so called none profit organizations!!!!!!!!!!!!!!!!!!!!
